PERSONAL .- Our worthy and esteemed friend GEO. E. THE COMING SUMMER.-It is said that the Earl of Rosse, one of the first astronomers in Europe, has told a gentleman in England that he anticipates one of the most intensely hot summers this year that has ever been known, and he advises farmers to build sheds for their cattle, by way of protection against the extreme heat.

NATIONAL HOTEL, CLARKSVILLE.—One of the pleasantest towns in the State, is Clark ville. For sensible well bred men, and beautiful women, it is second to no place of its size in the world. In point of commercial importance it also takes high rank. A town of such a character ought to have a good hotel; and it rejoices us to say that in this particular i is not wanting. The NATIONAL HOTEL, former- | advertisement in another column. ly the Franklin House, under the proprietorship of Mr. E. SPURRIER, has attained an enviable reputation. The accommodations one meets with there, are excellent in all respects, and it gives us pleasure to commend this house to the attention of such of our readers as may visit Clarksville. THEATRE. - Saturday night the play of "Lucretia Borgia" was presented again at the Gaiety, Miss Logan appearing as Lucretia. The play itself is not of a popular cast-it is too full of horrors, and the heroine too far removed from the sympathies of humanity, to become a favorite. Yet, this stripping of the character of Lucretia of meretricious aids, but gives greater room for the exercise of dramatic talent, and to test the real ability of the actress. Subjected to this test, the performance of Miss Logan was a triumph, in which her resplendant genius shone throughout most brilliantly. It was a piece of finished acting, such as is rarely seen, and seen, not easily ecased from the memory. Much has been said of Miss Logan's elecution, and great though the praise, it cannot be said to be in the least undeserved. None of her compeers can begin to approach her in this respect. Her superiority is patent to the most superficial observer. This accomplishment is a feature, without which the greatest ability to at, is unflaished, imperfect; with it, completed and regally crowned. Equally perfect in other attributes of a the finished actress-and no less distinguished for the graces of intellect and heart which form the true woman she merits unmeasured success in her porfession. and should never be allowed to play to a small house. We are, therefore, surprised and mortifled that here, in Nashville, where she has ever been a favorite, her audiences have been small. This should not be so; and for the remainder of her engagement, will not, we hope, be permitted by her friends. To-night she appears as Margaret Elmore in

## Kane's Arctic | xpedition.

Bouldes the suffering caused by the inhospitable climute, the intense cold brought on Rheumatism, stiff ness of the Joints, Chilblains, &c., and, in many instances the limbs and members of the daring explorera were frozen or frost-bitten. Their sufferings from these causes were very great and would have been unen-lurable but for the happy effects of a Liminent invented expressly for their use by the celebrated Dr A. G. Bragg, a plentiful supply of which was taken along with the expedition. This Liniment proved s valuable, and its merits so fully confirmed under the most unfavorable circumstances, that Dr Bragg has been induced to commence its manufacture for the public. He calls it very properly "Braco's Ancre LINDSENT." It is now for sale at all the Drug stores and will undoubtedly come into universal use.

five, six and seven to the pound. All Warranted Full Weight. Consumers will find it greatly to their interest to use these Candles in preference to those that are sold by COUNT. Many Candles that are really seven to the sound are branded and sold as sixes, making a differ-nce against the consumer of five pounds to the box. The variation usually made in the price is not propor oned to this difference, as the following state A box of Sevens contain 247 Candles, and is sold for Ladies' Dress Goods, 35 pounds, which is the actual weight. A box of 14 oz., or "Short Weight Sizes," contains ly 240 Candles, same size as the Sevens, and is sold for 40 pounds. Supposing the price of the former to be 20 cents, and the latter 18 cents, there will be a difference of 20 cents in price and 7 Candles in count per box, a favor of the full weight Candle to retailers and consumers; and this will be increased five cents per box for every cent advance in price.

Those interested would do well to examine the subect for themselves.
